Creative Living

TAYLORS

Creative Living

We have over 20 years experience in the furniture industry and during that time we have developed a passion for finding interesting, commercial products, ranges of furniture and an unrivalled reputation for both quality of products and customer service.

Working closely with our factories throughout Asia, we aim to produce beautiful pieces of furniture that will provide many years of functionality and pleasure.

Naturally we are committed to the environment, you will notice that a large percentage of the pieces we sell are made from reclaimed and recycled timbers. Where this is not the case then we strictly adhere to our legal and ethical obligations in the selection of timbers and will only use legally harvested trees originating from carefully managed forestry plantations.

Alongside our environmental commitments, we are also passionate about fair trade and deal with our carefully chosen suppliers in a respectful and ethical manner focusing on building long term relationships and beautiful furniture.
